Subject: UIC Permit Coordination

Hi, David and Michele—

I will be retiring at the end of June. I wanted to thank you for your diligent efforts to coordinate with Central Valley Water Board staff keep us informed of the status of various underground injection well projects that U.S. EPA regulates by sending us copies of your correspondence and requiring permittees to send us copies of their technical and monitoring reports.

As I have mentioned in the past, we typically do not review these documents due to time constraints. However, we would be pleased to do so if you specifically request our input.

We recently switched to a “paperless” office system, so we would appreciate receiving future letters and reports in pdf form. For projects based in the Sacramento area (roughly south of Butte County and north of Merced County), please address your correspondence to Scott Armstrong at scott.armstrong@waterboards.ca.gov. For other projects in the Central Valley Region, please address correspondence to Lonnie Wass in our Fresno office at Lonnie.wass@waterboards.ca.gov. Lonnie is also our Program Manager.

Regards,

Anne L. Olson, P.E.

Senior Water Resource Control Engineer

Central Valley Regional Water Quality Control Board

11020 Sun Center Drive, Suite 200

Rancho Cordova, CA 95670

Direct Dial (916) 464-4740

Please use our electronic content management (ECM) system if you are using email to transmit digital files such as a letter or a report less than 50 MB. Emails transmitting digital documents should be sent to centralvalleysacramento@waterboards.ca.gov and all documents must be in pdf form. In order to ensure that the documents are correctly delivered, the email message should include the facility-specific information listed in the Executive Officer's September 26, 2014 letter.

(If staff has requested digital files in another form, such as Word or Excel, those should be emailed directly to the staff member.)
